Education

Rizal Technological University

Bachelor's, Computer Engineering

Thesis: LEAP: Automated Bioprocessing System of Leaves into Raw Powder for Diverse Biological Applications

Boni, Mandaluyong

May 2026

Relevant Coursework:

Vice President Internal: Association of Computer Students (2024-2025)

Treasurer: Association of Computer Students (2023-2024)

Dean Lister (2022-2024)

Academic Achiever (2022-2025)

Experience, Leadership, & Activities

Department of Education (DepEd)

TechZone, Makati

Data Analyst & Power Platform Developer Intern

February 2026–Present

- Utilized Excel and Power BI to extract, process, and analyze data from a SharePoint-based ticketing system, supporting data-driven decision-making across the department.
- Independently designed and developed Power BI dashboards visualizing workload distribution for maintenance and networking teams, tracking performance metrics across all tickets logged since 2025.
- Solely built and deployed a digitalized Leave Request Power App from scratch, streamlining the leave filing process for department employees and reducing manual paperwork.

Association of Computer Students

Boni, Mandaluyong

Vice President Internal & Treasurer

September 2023–Present

- Managed internal communications, coordinated activities for 20+ members, and facilitated student volunteer support during enrollment procedures, orientations, and departmental events.
- Designed and produced organizational merchandise and handled email correspondence for students applying for academic achiever recognition.
- Oversaw organizational budget, maintained financial records, and collaborated with the auditor to manage income-generating initiatives and provide transparent budget reports.

AWS User Group BuildHers+ Philippines

buildhers@awsug.ph

Ambassador – SheCodes (Tech & Development under Operations Team)

February 2026 - Present

- Represent the AWS BuildHers+ community at RTU to promote cloud computing education and opportunities for women in technology. Assigned under SheCodes, the tech and development arm of the organization, focusing on building and maintaining digital systems within the community.

Academic Projects & Capstones

IoT Enabled Pet Dispenser with Mobile Application

3rd Year, 1st Semester Project

- Designed the physical machine structure for automated pet feeding system
- Integrated IoT functionality to enable remote monitoring and control via smartphone

RTU Map Kiosk

2nd Year, 2nd Semester Project

- Developed interactive web-based campus map kiosk using HTML, CSS, and Javascript in Visual Studio Code
- Designed comprehensive UI/UX for intuitive campus navigation and building location

POS System for Pet Accessories Store

2nd Year, 1st Semester Project

- Managed coding architecture and implementation of core system functionalities
- Designed user-friendly interface for efficient transaction processing and inventory management

Skills & Interests

Technical: Power BI, Power Apps, Power Automate, Sharepoint, Google Cloud, C++, Java, Web Dev (HTML, CSS, Javascript), Marketing Plans (Freelance Canadian-based)

Interests: Power BI, Power Automate, Power Apps, SQL, Python, Linux, AWS, UI/UX, React, Project Management / Scrum

Trainings

Google Kubernetes Engine Workshop

Trainocate

December 2025

- Acquired practical experience in deploying, managing, and scaling containerized applications on Google Kubernetes Engine (GKE) through hands-on technical labs. Developed foundational knowledge in cloud infrastructure and DevOps practices through an intensive workshop hosted by Trainocate, an official Google Cloud Partner.
